

The Great Pollinator Hunt

Please record sightings of bees, moths and butterflies on Hawaii Island and submit to One Island. We have an online form that makes it easy to record what you saw and where you saw it. Plus if you have a favorite butterfly or bee discovery 'moment' we want to hear and share your stories!

Form is at www.oneisland.org/hawaii-pollinators . Or turn it at a Same Canoe Market Booth.

See color identification photos online and *Have Fun!*
